

Roger L. Wabeke
MSc, MScChE, CIH, CHMM[®], PE

**WAYNE STATE
UNIVERSITY**

42 Years of Industrial Hygiene, Toxicology, Safety Engineering Experience

Steel manufacturing	Gray iron and steel foundries	Paint manufacturing
Blast furnaces	Core and pattern making	Automobile manufacturing
Coke ovens and powerhouses	Molten metal pouring	Tractor manufacturing
Marine transportation and shipping	Cope, drag, and flask making	Grinding, polishing, and buffing
Iron and stainless steel making	Casting cleaning	Adhesives application
Steel rolling/hot and cold mills	Mold making	Machinery cleaning
Furnace, oven, and ladle repair	Cupola maintenance and rebuilding	Vinyl resins manufacturing
Scrap, slag, and fly ash handling	Scrap handling	Truck and van manufacturing
Basic oxygen furnaces	Electric arc furnaces	Satellite manufacturing
Inoculation and drossing	Inoculation and drossing	Welding, soldering, and brazing
Refractory handling and repair	Refractory handling and repair	Spray finishing operations
Tar and light oil processing	Sand drying and handling	Paints
Furnace charge batch mixing	Furnace charge batch mixing	Adhesives
Air pollution device maintenance	Casting shakeout	Solvents
Metal machining	Electroplating	Isocyanates
Copper, zinc, and brass foundries	Steel (zinc, chromium, tin)	Metalworking fluids
Lead-acid battery manufacturing	Plastics (chromium)	Parting compounds, powder coatings
Recreational vehicle manufacturing	Automobile service stations	Lead-arsenic solder grinding
Paint, wood, and metal sanding	Solvent vapor degreasing	Rubber tire manufacturing
Mold cleaning and preparation	Powder metallurgy processes	Railroad tank car painting
Air conditioner manufacturing	Refrigerator manufacturing	Radio and television manufacturing
Tungsten carbide tool manufacturing	Transmission repair shops	Parking deck coating
Plastics injection extrusion	Chemical research and synthesis	Asbestos handling and removal
Plastics injection molding	Transportation loading and unloading	Chemical and physical analyses
Secondary scrap smelters	Trucks	Electronic parts manufacturing
Resin mixing and applications	Rail cars	Electrical equipment repair
Hazardous waste treatment	Great Lakes ore and grain boats	Aluminum melting and die casting
Reprographics and printing processes	Locomotives	Transmission manufacturing
Dental materials manufacturing	Carpentry and woodworking	Diatomaceous earth calcining
Mercury handling and processing	Isocyanate handling	Boiler repair and maintenance
Polyurethane foaming and machining	Mortuaries and pathology laboratories	Hospitals and health care centers
Roofing and building maintenance	Glass manufacturing	Modular building construction
Confined space processes and entry	Electron beam welding	Building construction sites
Blueberry harvesting/processing	Cake decorating	Petroleum refineries
Upholstery manufacturing	Metal pickling operations	Zinc die casting
Acid and alkali metal cleaning	Non-destructive testing	Animal parts rendering plants
Asphalt paving and roofing	Metal forging	Abrasive blasting
Waste water treatment	Case hardening	Post offices
Glass bronzing and treating	Architectural glass manufacturing	Diesel locomotive maintenance
Fibrous glass handling	Pulp and paper mills	Metal stamping
Scrap metal baling	Zinc melting and purification	Magnet manufacturing
Bakeries	Dry cleaners	Diazo film manufacturing
Engine testing and calibration	Cardboard manufacturing	Silk screening and printing
Pipe fitting and pipe covering	Electrical capacitor maintenance	Air pollution controls' maintenance
Iron ore mining and shipping	Wood/plastic die model making	Naval vessels
Semiconductor manufacturing	Plastics formulation	Newspaper printing
Highway paving	Grain handling and processing	Industrial lasers
Parts packaging operations	Photographic processes/darkrooms	Beryllium machining
Pig farms	Railroad car repair shops	Automobile repair shops
Robotics manufacturing	Aluminum ingot and alloy casting	Floor tile removal and installation
Uranium enrichment processing	Community fire departments	Steam boiler maintenance
Residential homes	Indoor air quality	Molten tin purification
Night clubs	Homes, auditoriums	Cl ₂ diaphragm cell manufacturing
Sewage treatment plants	Schools, places of worship	Infant formula manufacturing
Potato chip manufacturing	Office buildings, arenas	Galvanized pipe manufacturing
Gypsum mining	Cotton processing	Soft drink bottling plants

Copper smelting	Engine and transmission repair	Furniture manufacturing
HVAC system maintenance	Steel bolt manufacturing	Diesel locomotive servicing
Sausage making	Automobile shredding	Citrus juice processing
Chemical manufacturing	Cigarette lighter manufacturing	Asbestos abatement
Chlorine, bleaches	Liquefied propane gas odorization	Railroad tank car re-lining
Caustic soda	Sawmills and lumber yards	Drywall manufacturing
Chlorinated solvents	Movie theaters	Fuel tank manufacturing
Diamines	Drafting film manufacturing	Module building construction
Isocyanates (TDI, MDI, HMDI)	Pesticide applications	Pharmacies
Phosgene	Museums	Automotive service stations
Detergents	Hyperbaric tunneling operations	Tool jig manufacturing
Dinitro aromatics	Tool grinding	"Lost wax" metal casting
Soda ash	Steam turbine repairs and calibration	Model train manufacturing
Calcium chloride	Light bulb manufacturing	Coffee bean roasting
Ferric chloride	Prisons and correctional facilities	Solvent extractions of spices
Sodium bicarbonate	Floor surfacing and coating	Mattress manufacturing
Portland cement	Breweries	Synthetic detergents
Quaternary amines	Community noise evaluations	Drywall installation
Pesticides	Spark plug manufacturing	Brick laying
Vinyl and polyester resins	Gasoline engine manufacturing	Navy ships at sea
Polyols and polyethers	Catalytic converter manufacturing	Thermometer manufacturing
Alkyl and aryl sulfonates	Waste materials incineration	Epoxy floor coating
Lime and limestone	Diesel engine manufacturing	Garbage and trash recycling
Calcium hypochlorite	Medical research laboratories	Chemistry laboratory design
Ammonia, ammonium sulfate	Aluminum wheel manufacturing	Aircraft maintenance
Hydrogen sulfide	Plastic fluorination processes	Animal toxicological testing
Cyanides	Alcoholic spirits manufacturing	Aluminum extrusion
Aromatic amines	Biological research facilities	Dental prosthesis clinics
Chlorinated rubber	Nickel alloy battery manufacturing	Polyurethane floor coating
Alkyl epoxides	Mechanical road sweeping	Asphalt batch mixing
Hydrogen	Wire drawing	Gaming casinos
Aliphatic alcohols	Tool and die manufacturing	Scrap metal shredding
Phenolics	Gasoline truck filling racks	Truck axle manufacturing
Aromatics and polynuclears	Pharmaceutical manufacturing	Coffee roasting
Hydroxycellulosics	Industrial radiography	Lobster and crab harvesting
Organic catalysts	Stone quarrying	Concrete paving
Dispersants and emulsifiers	Bus terminals	Vocational training centers
Hydrochloric acid	Sign painting	Animal carcass incineration
Lignins and sugars	Trash recycling	Ship repair and breaking
Calcium carbonate	Fruit processing	Cotton fabric bolt dyeing
Fertilizers	Explosives manufacturing	Wire cloth manufacturing
Paints and coatings	Stainless steel anodizing	Welding of all types (stick, MIG, TIG, electron beam, laser, submerged arc, flux-cored, resistance, pulsed arc, plasma arc, thermal spray- ing, oxyfuel, friction, etc.)
Mercury amalgams	Hazardous waste sites	Dairy products manufacturing
Coal tar chemicals	Wood preservation	Granite and marble quarries
Meat packing and processing	Aircraft parts prototype mfg.	Vegetable processing, canning
Dry wall installation	Ball-point pen manufacturing	Gun marksmanship ranges
Petroleum transportation	Restaurants and cafeterias	Zinc smelting and die casting
Furniture restoration	Rubber hose manufacturing	Nursing homes
Copper pot manufacturing	PCB handling and disposal	Ceramic tooth manufacturing
Glutaraldehyde sterilization	Anti-neoplastic agents	Poultry farms/egg production
Electrical conduit manufacturing	Coal tar and pitch processing	Salt mines
Refrigeration plants	Silica flour processing	Ozone destructive testing
Butcher shops	Engine oil filter manufacturing	Nail manufacturing
Electric power generation	Greenhouse horticulture	Agriculture
Sign painting	Anti-neoplastic drug manufacturing	tilling
Steel drum manufacturing	Office buildings	harvesting
Clean room assembly operations	Screw machine manufacturing	
Wave soldering processes	Day care and nursing facilities	
Molten aluminum purification	Polyurethane manufacturing	
Soy bean oil extraction, processing	Mental health clinics	
Spice processing	Radiator manufacturing	

Coal mines
Soy bean meal manufacturing
Plastics formulating
Medical patient decontaminations
Drain tile laying
Slaughter houses

Railroad box, hopper, tank car painting
Stenciling
Polyurethane slab casting
Confined space entry
Bolt and nut manufacturing
Poultry (chickens, turkeys) raising

threshing
combining
fertilizing
Lumber mills
Blow molding
Terpene extraction, distillation

Aircraft restoration
Copper sculpting
Jewelry making
Wig manufacturing
Floral greenhouses
Sheep vaccine inoculation
Retail bread delivery
School bus maintenance
Print shops
Investment casting
Plywood manufacturing
Plastics formulation
Meat products wrapping/sealing
Casket vault manufacturing
Tree felling
Trash and garbage collection
Lumber mill bark stripping
Beauty parlors, cosmetology
Public building sanitation
Steam boiler maintenance
Pottery manufacturing
Pulverizing and micronizing
Frozen fish sectioning
Waitressing
