POSITION SUMMARIES:

University of Missouri School of Medicine

As the Associate Dean and Chief Academic Officer for the Springfield Clinical Campus, I oversee the education of about 50 third- and fourth-year medical students, eight staff members, 14 physician associate clerkship directors, and 350 volunteer physician faculty members. I also work with communication and development efforts for our campus and serve as a liaison for the University of Missouri in Springfield. Clinically, I perform nerve conduction studies/electromyograms (NCS/EMG) at the Cox Pain and Neurology clinic in Branson, Missouri.

University of Louisville School of Medicine

I served in advancing areas of responsibility with the School of Medicine, first within the PM&R residency program and then in undergraduate medical education administration. As a VA attending, I routinely taught PM&R residents and soon became the VA site director and then the associate program director of the residency. In 2018, I became more involved in undergraduate medical education, serving as a clinical preceptor and PBL tutor before taking on leadership roles for undergraduate medical education as the director of PBL and co-director of the Distinction in Business and Leadership track.

Robley Rex VA Medical Center

I worked full time from 2009 until 2018 for the Louisville VA, where I specialized in electrodiagnostic testing and provided care in outpatient rehab clinics, amputee clinics, polytrauma, spinal cord injury, a multidisciplinary hand clinic, wound clinic, and botulinum toxin injection clinics for spasticity and dystonia. I served as the lead physician for amputee care for the VA and created and led the Louisville VA's ALS multidisciplinary clinic. I oversaw PM&R resident education and was recognized by the residents and faculty with the Outstanding Teacher Award in 2011-2012 and 2015-2016. I also created novice, intermediate, and advanced EMG rotations, clinic rotations for residents, and Pain and Sports Medicine Fellows. I served as the section chief of PM&R from 2014 to 2018 before pursuing my MBA.

Courtesy Appointments at Other Institutions

I served as a Faculty Preceptor for Des Moines University's Master of Healthcare Administration program in 2017 and as a Clinical Advisor for the University of Alabama-Birmingham's Doctorate Nursing program in 2015-2016.

Our Springfield Clinical Campus office collected donations to donate funds towards a holiday meal for the staff of Isabel's house, which serves our community by providing care for families undergoing a crisis, respite, empowerment, support, and training services.

MedPrep 3 Diversity and Inclusion Seminar, 2021

Participated in the MU School of Medicine's Diversity and Inclusion seminar alongside MU medical students and faculty.

Caleb Science Club, 2021

Attended the MU PM&R's presentation of "Jump, Run, Ouch: Your Body's Ability to Move and Feel" at the Called to Academic & Leadership Excellence and Building Character (CALEB) Science Club, fostering connections with Missouri youth with a focus on those who may not have access to resources and connections to explore healthcare fields.

Special Olympics MedFest, 2018 - 2019

I served as an attending physician and supervised residents and medical students, assisting with sports physicals for athletes to participate in Special Olympics sports programming in Louisville, Kentucky.

ADVANCEMENT:

Working with the MU School of Medicine Advancement team and MU leadership, local fundraising efforts include communications and meetings with potential donors to create endowments or fund scholarships.
