CURRENT EMPLOYMENT:

Clinical, Consulting, and Forensic Psychology Practice

Tempe, Arizona
4/1/2015 - present

Duties and responsibilities:

Provide consultation and training services to government and private organizations, business teams, healthcare organizations, federal courts, sports teams, and non-profit agencies. Conduct psychological evaluations and administer psychological testing to include intellectual, achievement, cognitive, neuropsychological, personality, and forensic testing. Consultation with the courts and attorneys as well as performance consultation with business leaders and corporations. Forensic evaluation practice includes IME, fitness for duty, competency to stand trial, incapacitation, testamentary capacity, personal injury, mitigation, and risk assessments. Special populations/topics include Native Americans, military, veterans, police, EMS, minority populations, incarcerated juveniles and adults, veterans, suicide, PTSD, violence, and addiction.

PREVIOUS EMPLOYMENT:

Clinical Psychologist

VA Southeast Clinic
Gilbert, Arizona
7/1/2015-11/20/2015

Duties and responsibilities:

Serve veterans by providing a full range of psychological interventions. Trained and certified to deliver evidence-based psychological interventions and treatment.

Regional Behavioral Health Branch Chief

United States Public Health Service/Indian Health Service
Phoenix, Arizona
12/5/2006 – 5/31/2015

Duties and responsibilities:

Responsible for the planning, implementation, and evaluation of mental health services to include program management, consultative and advisory services, and education and training. Serve as the principal behavioral health program advisor to the Area Director, Chief Medical Officer, Area Executive Officer, and the Director of the Office of Health Programs. Serve as a behavioral health consultant to Indian Health Service facilities on a national and regional level (Arizona, Nevada, and Utah). Provide consultative and advisory services in the field of behavioral health to Indian Health Service programs, Tribal and Urban programs, and educational institutions at the national, state, and community levels. Participates in recruitment activities to identify and select behavioral health professionals to work with American Indian/Alaskan Native people. Conduct program evaluation visits to such facilities on a periodic basis to review and advise on “best practice” diagnostic and treatment procedures. Lead consultant on topics including MSPI, DVPI, emergency response, telehealth, SMI, and VA Liaison. Provide team-building training and employee effectiveness program development for regional and field clinics.

Chief, Behavioral Health Department

Immigration Customs Enforcement/Division of Immigration Health Services

Florence, Arizona

1/10/2004 – 12/4/2006

Duties and responsibilities:

Design, plan, and implement a new mental health program for a culturally diverse population within Immigration Custody Enforcement (ICE) setting to include:

Revise and implement improvements to the Division of Immigration Health Services National Suicide Prevention and Intervention Policy to improve the identification and management of suicidal detainees Division-wide. Develop and implement a National Suicide Prevention Training program for DIHS Medical Providers and ICE Custody Officials. Provide specialized professional skills to include suicide assessments, forensic evaluations, and crisis interventions. Conduct individual and group psychological interventions, treatment planning, and psychological consultation/liaison services for detainees. Develop and administer training programs to correctional officers and medical staff on issues related to suicide risk, handling assaultive detainees, addressing manipulative inmate behavior, and health & wellness programs for correctional/medical staff. Consultant to the OIC (warden) regarding mental health and behavior management programs within the facility.

Staff Psychologist

Federal Bureau of Prisons

U.S.P. Lewisburg, Pennsylvania

6/2/2002 - 1/9/2004

Duties and responsibilities:

As Program Manager of the Telemedicine Psychiatry Program coordinated the psychotropic medication needs of 1,600 inmate population, improved the accuracy of dispensing medications, monitored inmate medication compliance, and developed quality control measures. As Coordinator of the Severe Mental Illness (SMI) Program provided evaluation, management, and oversight of the needs of the most severely psychiatrically disturbed inmates. As Psychological Consultant to the Intensive Confinement Center (boot camp) evaluated all incoming inmates to determine psychological appropriateness for the program and provided counseling, crisis intervention, psycho-educational presentations, and consultative services to Camp Commander. Provide a full range of psychological interventions to inmates including individual and group counseling, psychological evaluations, crisis management, and psychological assessment.

Independent Psychology Practice (part-time)
