Clinical / Quality Improvement Activities

- Project Title: Standardization of Fluids in Inpatient settings (SOFI). 2018-present
Description: This is an ongoing project that follows the recent AAP guideline to encourage use of isotonic intravenous fluids in children of all ages.
- Project Title: Taskforce for Improving Physician Event Reporting (TIPER). 2018
Description: This was a project to improve physician reporting to our safety intelligence system. We were targeting residents first and then once a system was in place, would roll out to other faculty in the hospital.
- Project Title: Improving pediatric asthma management using a pediatric scoring system and order set pathway. 2016-2018. Description: Respiratory Therapists and Hospitalists worked together to develop and implement a pediatric asthma scoring system and order set. The goal was to reduce the length of stay and asthma readmissions.
- Project Title: Stop the Noise! A Framework for Improving Alarm Response Time on a Pediatric Unit. 2016-2017
Description: This project was aimed at increasing alarm response time with critical alarms on the pediatric inpatient unit.
