OCCUPATIONAL THERAPY EXPERT WITNESS

QUALIFICATIONS PROFILE

Patient-oriented and service-focused healthcare professional, offering extensive experience in providing occupational therapy services and medical legal consultation. Armed with more than 25 years of direct and indirect patient care, with expertise in conducting complete evaluations, developing treatment plans, and collaborating with other healthcare teams toward patient quality of life and independence. Known for solid dedication to advocating patient needs, empowering them with disease management, and contributing efforts to improve delivery of care. Effective at building strong rapport with patients, families, and all levels of professionals using exceptional interpersonal skills.

AREAS OF EXPERTISE

Inpatient Care Management | Patient Care and Services | Occupational Rehabilitation | Cross-functional Collaboration
Treatment Outcomes Documentation | Strategic Planning and Implementation | Patient Health and Safety

CAREER OVERVIEW

- Worked as an expert in catastrophic case management for more than 25 years as an occupational therapist.
- Partnered with experts to establish best practices and quality of care through critical thinking and problem resolution
- Directly collaborated with the Cleveland Clinic's leading doctors on mobility disorders, dementia, and Alzheimer's disease, as well as the development of the safest environments in the home while maintaining independence
- Conducted accurate review audits and quality assurance for contracted home health agencies while exhibiting thorough knowledge of PDGM and Medicare home health agency expectations
- Ran a successful outpatient therapy clinic with a focus on lymphedema care and cancer rehabilitation
- Carried out keen analysis of factors affecting the patient's activities of daily living (ADLs), instrumental activities of daily living (IADLs), health management, rest and sleep, education, work, play, leisure, and social participation
- Exhibited remarkable clinical reasoning and professional judgment in assessing and diagnosing occupational difficulties using occupation-based therapies
- Performed diverse occupational therapy services, such as habilitation, rehabilitation, and promotion of physical and mental health and wellness for clients with wide-range of ability-related needs
- Displayed proficiency in working in diverse medical settings, which included of the following:
 - Acute Care
 - Inpatient Rehabilitation
