

OVERVIEW

Mr. Ahrens is a well-known Influential security/resilience and imaginative premise liability security advisor with 22+ years of security management and foreseeability experience. He has facilitated threat, risk, vulnerability, loss, and shrinkage audit/analysis with achievements spanning worldwide.

Mr. Ahrens has also offered security thought leadership in the development of security standards/guides and training programs.

A former founding member of the ASIS (American Society for Industrial Security) commission on guidelines, he has contributed to a number of security guides and standards and continues his work now with the Council on Tall Buildings and Urban Habitat (CTBUH). In this role, he developed a security guideline to assist developers and owners in the selection of security controls for their respective iconic properties.

He has over 40 testimonials that echo his accomplishments in leadership, team building, security solutions programming/design, analysis, policy/procedure development, cost enhancement and containment. Culminating a decade of achievement in the security space, Mr. Ahrens, in 2014, received two awards for security innovation for his contributions on the Doha, Qatar Petroleum Headquarters project – a 22 million sq. ft campus in Doha, Qatar.

Global Practice Leader / Manager, Security Consulting & Design

Direct the entire security consulting & Design practice within Aon, including staffing, development, marketing, peer review and the administration of security services for a multitude of client types and challenges

SECURITY SOLUTIONS

- Provided strategic guidance and development for large security programs involving corporate campus facilities, data centers, mixed use, and corporate projects within the U.S., APAC and EMEA markets.
- Conducted over 60+ security/threat/Hazard assessments for numerous clients and verticals across multiple industries, countries that reduced exposures by pre-identifying vulnerabilities and threats.
- Assessed armed/unarmed staffing.
- Established crisis management and project management programs.
- Developed, administered and created a wide variety of operational policies, procedures and response programs.
- Supported multiple clients with threat assessment investigations and workplace violence management strategies.
- Prepared, developed, led and facilitated a multi-agency (Fire/Police/Emergency Management) active shooter table top discussion for the purposes of enhancing response during an actual event.
- Developed, conducted crisis table tops.
- Conducted organizational analyses, reviewed K&R, ERM, and Loss Prevention programs, pinpointed lapses, gaps and recommended enhancements.
- Improved security standardization and enforcement by developing benchmarks, corporate standards, departmental reviews, organizational policies/procedures, and business plans/justifications for corporate clients.
- Commissioned complete security strategic security building program for Lotte Super tower (High-Rise), South Korea (projected to be the 2nd tallest building worldwide) and the largest corporate office in the Middle East Qatar Petroleum Financial district, which was awarded the most innovative security project in 2014
- Evaluated dozens of security management programs and security staffing implementations.
- Create security standards, site security, plans that address all security program facets.
