Company Experts:
John J. Carney, Founder and Chief Technology Officer, is a graduate of MIT and Mitchell Hamline School of Law. He has over 30 years of software engineering experience. He is a federally and state licensed attorney. Mr. Carney serves on the Council of the Minnesota State Bar Association section on Technology Law. He also serves as Treasurer of the Minnesota State Bar Association, District #19. He sits on the Computer Forensics Advisory Board at Century College. He is a Fellow of the American Academy of Forensic Sciences and presents nationally on digital forensic and cybersecurity topics. And he writes a monthly column for Minnesota Lawyer entitled Exemplary Evidence.

Kevin Bluml, Chief Computer Forensic Examiner, performed computer forensic investigations full time for twenty-five years. He has examined over 3,500 computers and authored hundreds of reports and conclusions. Furthermore, he has testified extensively at depositions and in the courtroom as an expert witness. Most importantly, Mr. Bluml has qualified on numerous occasions as a computer forensics expert for companies like Microsoft and Motorola.
